

INFINUTY

PREMIUM NUTS AND NUT BUTTERS

Our products do not contain added salt, sugar, palm oil or preservatives. To ensure 100% quality of all nuts, we air roast them dry without adding oil.

Our biggest supplier is nature!

WHO WE ARE?

We are a few friends who share an appreciation of sport, nature and good quality food. We wanted others to share in our trio of hobbies too and make it more of a priority. So we combined our love into one company, **InfiNuty**.

As a result, we created high-quality products with many health benefits, while still respecting our environment and supporting independent farmers. A couple of years later, and the UK's famous **Great Taste Awards** has recognized us already!
